About

CHRIST (DEEMED TO BE UNIVERSITY)

CHRIST (Deemed to be University) was born out of the educational vision of St Kuriakose Elias Chavara, an educationist and social reformer of the nineteenth century in South India. Established in 1969 as Christ College, it undertook path-breaking initiatives in Indian higher education with the introduction of innovative and modern curricula, insistence on academic discipline, imparting of Holistic Education and adoption of global higher education practices with the support of creative and dedicated staff. One of the first institutions in India to be accredited in 1998 by the NAAC, and subsequently in 2004 and 2016, CHRIST (Deemed to be University) has the top grade 'A' and 'A+' grade in 2022.

ABOUT THE CONFERENCE

The global economy is undergoing profound transformation driven by rapid technological advancement, shifting geopolitical dynamics, and growing sustainability concerns. Digital technologies such as artificial intelligence, big data, and financial technologies are reshaping business models, economic structures, and societal interactions across the world. At the same time, organizations and governments are facing increasing pressure to ensure that technological progress is aligned with ethical governance, environmental sustainability, and inclusive development.

The theme "Reimagining Global Economies: Digital transformation and Responsible Innovation for a sustainable and Inclusive Advancement" reflects the urgent need to rethink traditional economic and institutional frameworks in response to these evolving global realities. ICNPECS 2027 aims to provide an interdisciplinary platform for scholars, policymakers, and industry practitioners to explore emerging paradigms in economy, commerce, and society. The conference seeks to encourage critical dialogue and research that contributes to building resilient, responsible, and inclusive economic systems capable of addressing the complex challenges of the future .

CALL FOR PAPERS

THEMES AND SUB-THEMES (Not Limited to)

1 Digital Transformation and the Future of Business

- Artificial Intelligence, Machine Learning and Business Analytics
- Digital Platforms and E-Commerce Ecosystems
- Blockchain, FinTech and Digital Finance
